

A trusted partner
in bringing new
medicines to life. **Fast.**

Sai

Make it
better
together

At Sai Life Sciences, we build lasting partnerships with our clients through collaboration. We take a nimble and creative approach to deliver high quality, cost effective solutions for our biotech and pharma partners to accelerate the time to market.

Track record

of making it better

200+ Discovery programs completed

40+ programs advanced to IND or Ph I/II/III

Diverse therapy areas
Oncology, CNS, Inflammation,
Antivirals, Rare diseases and more

Enduring client relationships
averaging 10+ years

> 65% integrated drug
discovery customers

Diverse customer profile biotechs,
small & mid pharma
and big pharma across USA, EU,
UK and Japan

> 300 active customers
of innovator companies

31 Commercial products
in current portfolio of projects

11 Phase III products
in current portfolio of projects

USFDA, PMDA
100% successful track record
of regulatory inspections across
our R&D and manufacturing facilities

3000-strong talent pool
1500 in R&D, 850 in manufacturing
and 350 in quality

US \$ 150 Mn investment
between 2018 – 2023 in infrastructure,
people and processes

Facilities

Complementing R&D facilities across Boston, Manchester & Hyderabad for seamlessly blending creative exploration with rigorous execution across the drug discovery & development journey; consistently delivering with quality, speed and cost-efficiency.

Boston, USA

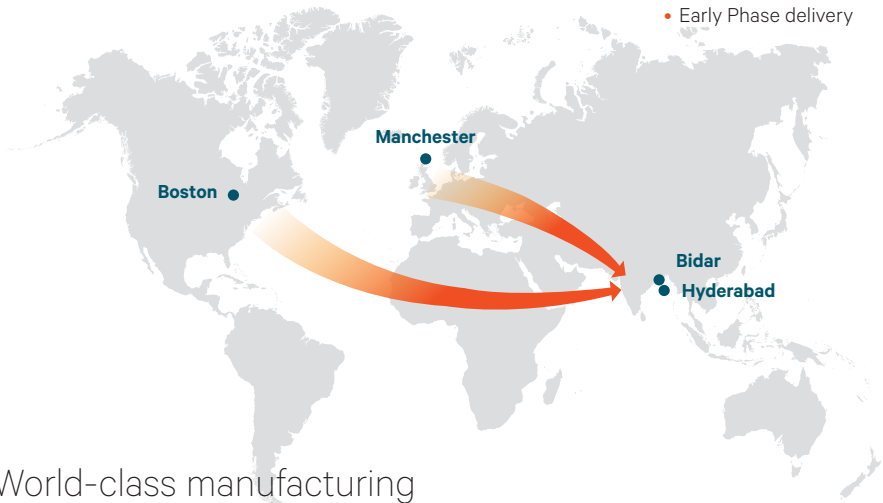

- Discovery Biology facility
- Exploratory focus allows clients to externalize complex biology projects that necessitate more fluid experimental design with real-time decision making
- Complemented by large biology team in India to present clients an optimal solution in terms of speed, cost and talent

Manchester, UK

- Process Chemistry R&D Lab
- Top-notch global talent in chemistry, analytical and engineering
- GMP KiloLab
- Provides high quality and efficient development, scale-up and technology transfer to Indian sites

Hyderabad, India

- 12-acre fully integrated R&D campus
- 1200-member scientific team
- > 100,000 sq.ft. state-of-the-art labs including
 - Discovery – Biology, Chemistry, DMPK, Tox
 - Development – Process R&D, Analytical R&D, Process Safety, Quality Control
 - Process Engineering & Scale-up
 - Early Phase delivery

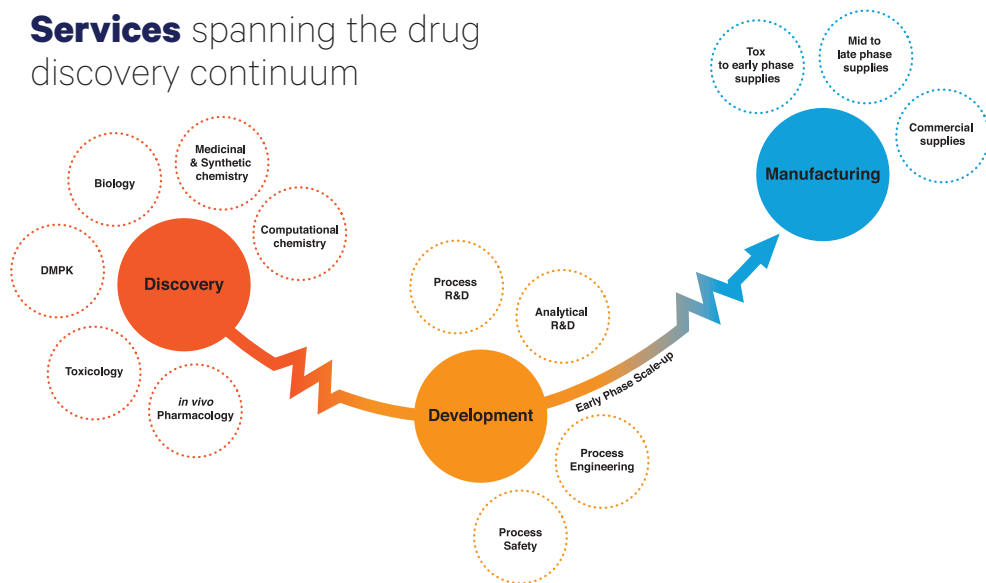

World-class manufacturing base in India.

Bidar, India

- Supplies RSM, intermediates and APIs for clinical and commercial use
- 450 KL capacity with manufacturing blocks designed as multi-purpose production trains for quick turnaround
- 100% track record of successful audits by USFDA, PMDA Japan and COFEPRIS Mexico
- > 600 audits by innovator pharma and biotech customers
- Backed by a sourcing office in Shanghai, China

Services spanning the drug discovery continuum

Discovery

From target ID & validation to IND stage through Creative Chemistry, High Quality Biology, DMPK & Toxicology

Highlights

- Integrated Drug Discovery
- Complex Chemical Synthesis
- In vitro and in vivo pharmacology
- Comprehensive ADME and PK profiling
- Toxicology evaluation

Development

Complex chemical synthesis from development to commercialization

- Advanced labs for early, late phase and commercial delivery
- Comprehensive analytical capabilities
- Fully equipped process safety lab
- Pilot plant and early phase delivery block
- HPAPI (0.1 $\mu\text{g}/\text{m}^3$) capability
- Technology platforms – Bio catalysis, Flow Chemistry, Chemo catalysis, Continuous Extraction, Continuous Distillation, Lyophilization
- Automatic data capture, Containment

Manufacturing

- 450 KL Capacity
- 0.25 – 10 KL reactor sizes (SS, Hastelloy & Glass-lined)
- Containment level of 1 $\mu\text{g}/\text{m}^3$
- 11 Clean Rooms of ISO – 8
- Amidites block
- HPAPI (0.1 $\mu\text{g}/\text{m}^3$) capability
- Lyophilization at pilot & commercial scale
- High pressure block
- Chromatography at commercial scale
- Cryo reactions at 2.5 KL, 4 KL & 5 KL scale
