together

# Integrated Drug Discovery

Where science flows without silos

## Discovery services spanning the entire journey from target ID and validation to IND

As a leading Contract Research, Development, and Manufacturing Organization (CRDMO), Sai Life Sciences delivers integrated discovery services spanning synthetic and medicinal chemistry, biology, DMPK and toxicology to a global client base across diverse therapeutic areas. If you are looking to reduce the time to clinic for your drug candidate, do get in touch!

### Highlights

- 25 years Innovator focused CRO-CDMO; Pure-play services company
- 300 Active customers spanning Biotechs Startups, mid and big Pharma across US, EU, UK, Japan & Australia
- 3000+ strong talent pool across India, US and UK
- 300+ Discovery programs completed
- Enduring client relationships averaging 10+ years
- 40+ programs advanced to IND or Phase I/II/III

### Capabilities

- Target ID & Validation
- Hit identification
- Computational Chemistry
- Synthetic & Medicinal Chemistry
- CADD
- Biology
- DMPK
- Toxicology
- *In vivo* Pharmacology

### Why Choose Sai?

- Global footprint – Exploratory Biology Lab in Boston, Integrated Discovery & Development Campus in Hyderabad, and Process Labs in Manchester, UK
- Focus on rapid turnaround time and shorter decision-making cycles
- Unified program management and transparent communications
- Experienced and dedicated scientific team
- Custom labs and fit-for-purpose integrated teams
- Customizable collaborations

### Therapy focus

- Oncology
- CNS Inflammation
- Autoimmune
- Anti-infectives
- Cardiovascular
- Metabolic Disorders
- Pain
- Fibrosis
- Rare diseases and more
