

Immunology

PD Assays

- IL-2 induced IFN gamma
- IL-12 and IL-18 induced
- IFN- γ release
- IL-22 induced serum amyloid A
- MDP induced TNF release
- LPS induced cytokine release
- Carrageenan induced paw edema
- LPS induced paw edema

Skin Disorder

- Imiquimod-Induced Psoriasis model in mice
- IL23-induced Psoriasis model in mice

- MC-903 induced atopic dermatitis in mice
- Oxazolone induced delayed type hypersensitivity mice model
- Oxazolone induced atopic dermatitis
- BLM induced skin fibrosis
- Chloroquine induced Pruritus

IBD

- DSS-induced colitis model in mice
- Oxazolone induced colitis mice model in mice

- TNBS-Induced colitis model in rat
- T cell Transfer model
- IL-10 knock out

SLE

- SLE: NZBWF1/J mouse model

Duchenne Muscular Dystrophy

- X-linked muscular dystrophy (MDX) mouse

Arthritis

- Collagen-Induced arthritis model

- Adjuvant induced arthritis model
- Collagen antibodyinduced arthritis (CAIA)

Gout

- Monosodium Urate (MSU) Crystals Induced Gout model in Rat

Osteoporosis

- Ovariectomy (OVX)-Induced Osteoporosis Mice/rat
- Bone Formation in C57BL/6 Mice
